NOTIFICATION.

No 1552/X—578, dated the 8th July 1914.

In continuation of notification no 1039/X—1088, dated the 25th March 1914, it is hereby notified that the Board of Revenue, in exercise of the powers conferred by section 64 of the United Provinces Court of Wards Act, 1912, have made the following rules for regulating the management of property under the superintendence of the Court of Wards and generally for the guidance of all persons in all proceedings under the said Act.

By order &c,

W. GASKELL,

Joint Secretary to the Board of Revenue,

United Provinces

PART I.—MANAGEMENT.

Chapter I.—Assumption of charge.

Preliminary reports.

1. The district officer shall report for the orders of the Court of Wards, through the Commissioner, as soon as they come to his notice—

- (1) all cases in which he considers (a) that the Court of Wards should assume the superintendence of the property, or person and property of a minor or (b) that the Government should be moved to make a declaration under clause (b) or clause (d) of subsection (1) of section 8 of the Court of Wards Act, 1912, or to issue direction under section 9, and
- (2) applications made to him by proprietors under section 10 of the Court of Wards Act, 1912, where he considers it expedient that the estate should be taken under the superintendence of the Court of Wards

NOTE.—In the case of minor proprietors, the Court of Wards will not ordinarily intervene if other satisfactory arrangements can be made for the management of their estate and the protection of their interests. Petty estates, that is to say those with a revenue of less than Rs. 2,000 per annum, belonging to minor proprietors should not be recommended for Court of Wards management, unless other arrangements are absolutely impracticable.

2. Under the Guardians and Wards Act, 1890, the civil court may appoint the district officer to be the guardian of a minor's person or property, or both. Under G.O. No 1086/I—26C, dated the 12th April 1901, district officers are prohibited from acting as guardians of minors who are proprietors within the meaning of the Court of Wards Act, except on behalf of the Court of Wards and they are directed to abstain from making any application under section 8 (c) and (d) of the Guardians and Wards Act. If the district officer receives a notice from the civil court under subsection (2) of section 11 of that Act, and he is of opinion that the estate is suitable for management by the Court of Wards he shall report the case to the Court of Wards according to rule 1. He should refuse under section 17 (5) appointment by the civil court as guardian of any minor proprietor.

NOTE.—District officers as guardians of minors who are not proprietors are subject to the control of the Board of Revenue.

3. Under section 68 of the Indian Lunacy Act (IV of 1912) in cases where the estate of a lunatic consists of property which subjects the proprietor if disqualified to the jurisdiction of the Court of Wards, the civil court is empowered to authorise the Court of Wards to take charge of the estate.

In the event of the civil court authorising assumption, the district officer should report the case under rule 1. Under section 69 of the same Act the civil court can only put the district officer in charge of the person and estate of a lunatic in cases where the estate consists wholly or partly of land or interest in land which would not subject the proprietor

if disqualified to the jurisdiction of the Court of Wards. The civil court, however, for this requires the consent of the district officer which should not ordinarily be given.

4. The report of the district officer submitted under rule 1 shall contain the following:—
under rule 1.

- (1) A brief history of the family of the proprietor, with a genealogical table showing the relationship to him of all persons who are either recognised as entitled to a share in, or maintenance from, the estate, or who make any claim to a share in it, or to succeed as reversioners.
- (2) The reasons for considering disqualification necessary.
- (3) The reasons for recommending assumption of charge of the property, of the person and property (as the case may be) of the proprietor, and, in cases falling under section 10 of the Court of Wards Act, 1912, the reasons why it is expedient that the estate should be managed by the Court of Wards.
- (4) A detailed account of the shares owned by the various proprietors, if more than one, in the estate, with details of their separate properties, assets and liabilities, if any.
- (5) A report regarding all persons not recorded as proprietors, who (a) by law or by family custom have any right to a share in the estate, the extent of such right being specified, or (b) though not recognised as entitled to a share, may make such claims on the estate as may involve it in serious litigation.
- (6) A statement of the tenures and conditions on which all villages of the estate are held, e.g. whether ancestral or self-acquired and whether in full zamindari or on mortgage with possession. In the case of villages held on mortgage the conditions of the deed should be given, more especially those relating to redemption.
- (7) A statement of the financial position of the estate, with a clear estimate of its ordinary income and expenditure, of the debts due to it and of its liabilities including interest up to the probable date of assumption of charge, and if indebted, of the possibility of clearing the debt within a reasonable time. In the case of villages belonging to the estate which are mortgaged with or without possession it should be stated whether the conditions of the deed permit of immediate redemption.
- (8) Proposals for managing the estate and, where necessary, for the guardianship of the person of the proprietor.

NOTE 1.—In the case of indebted estates it is essential that, so far as practicable, the full amount of the debts with which the estate is encumbered and which the proprietor has incurred on his personal security should be ascertained. Enquiry from the registration offices of the districts in which the estate is situated should not be neglected. Where application for assumption of charge has been made under section 10 the proprietor should be given to understand that concealment of the real financial condition of the estate will be regarded by the Court of Wards as good ground for release before the liquidation of the debts. If the debts upon an estate cannot be cleared within a reasonable period, such as twenty years, the intervention of the Court of Wards should not be recommended.

NOTE 2.—In cases in which an estate consists of property situated in more than one district the report shall be submitted by the district officer of the district in which the head quarters lie. He should obtain particulars for the outlying portions of the estate in direct communication with the district officers concerned.

5. The report mentioned in the foregoing rule shall be accompanied by statements to accompany statements in forms 1, 2 and 3 and in the case of an application under section 10, the application itself shall also be submitted.

NOTE.—Petitions presented under section 10 should follow closely the wording of the section. When the petition is not presented to the Collector by the applicant in person it is advisable that the applicant's signature should be witnessed by two respectable persons and verified before an officer of not lower standing than an assistant collector of the second class.

8. A district officer has no authority to assume charge of the property, or person and property, of any proprietor without the orders of the Court of Wards, except under section 14 of the Act.

9. On receiving the orders of the Court of Wards assuming charge of the property, or person and property, of a proprietor, the district officer shall at once take possession of the property (if not already in his charge under section 14 of the Act) and make the necessary arrangements for its management, for the ascertainment of the debts as laid down in chapter IV of the Act, and for the care of the wards. He shall submit to the Court of Wards through the Commissioner a budget for the remaining portion of the Court of Wards' year. He shall also submit in due course his proposals for the liquidation of the debt, if any. In submitting these proposals he should state how far he considers it necessary to sell portions of the estate: a definite estimate should be given of the amount that can be raised by this means, and of the amount available from the profits of the diminished estate towards the liquidation of the remainder of the debts.

10. If the estate is that of a minor the district officer shall take steps to ascertain the age of the ward. With this object he shall cause a formal inquiry to be made from relatives and others likely to be acquainted with the facts. Statements made during such inquiry shall be signed by the persons making them, and the district officer shall record a distinct finding as to the date of birth according to both Indian and Christian eras.

Education of wards.

14. The district officer shall make all arrangements for the suitable education of minor wards of estates with a gross income of below Rs. 10,000 per annum the control over which has been vested in him by the Court of Wards.

In other cases when a minor ward is of an age to require a tutor or to be sent to school, a report on the subject shall be submitted by the district officer to the Commissioner. The Commissioner will then decide on all matters relating to the ward's education unless the estate is one of which he is not empowered to pass the budget, when he will refer the matter with his recommendations to the Court of Wards.

15. Unless for any special reasons the appointment of a tutor is desirable, minor wards, who have attained a suitable age, should be educated at school in preference to receiving tuition at home. In selecting the institution due consideration should be paid to the wishes of the family and to the advice of the advisory committee. Wards belonging to families of position should ordinarily be sent to the Colvin Taluqdars' school, Lucknow. When the ward is educated at a school, the principal of the institution should be asked to submit an annual report on his progress. If the ward receives tuition at home, arrangements should be made for his annual examination by the inspector of schools or, where this is not possible, by the deputy inspector of schools, who will furnish a report to the district officer. This report should be submitted with the annual management report to the Commissioner.

16. (1) Minor wards during the last two years of their minority should be taught the principles of estate management. To effect this they should be taken by the manager on tour through their estates; and be given instruction in rent and revenue law, agriculture and the maintenance of patwaris' papers. The importance of keeping in personal touch with the tenantry should be impressed upon them. Arrangements should be made, if possible, for their residence at head quarters for part of the year, to enable them to familiarize themselves with the working of the office and the method of keeping accounts. Reports relating to matters of estate administration should be laid before them and they should be freely consulted on questions of importance. In some cases it may be practicable to appoint them to positions of trust, such as assistant manager, which will give them insight into the system of management.

(2) The method of instruction and the aptitude of the ward for estate management should be noticed in the annual report.

17. The district officer should see that the guardian of a female ward or the relatives and friends of the family make suitable arrangements for her education to the extent which is usual in the more intelligent families of the class to which the ward belongs. The progress made should be noticed in the annual report.

40. In districts where no manager is appointed the district officer is *ex officio* manager. An assistant manager may be appointed to assist him in the supervision and inspection of the estates in his charge. This assistant shall ordinarily be a naib tahsildar seconded from Government service or a kanungo who has obtained a diploma of the agricultural college.

In this case the ziladar's maximum pay shall be Rs. 30.

As a rule a ziladar shall not be allowed a muharrir unless the gross cash rental of his circle exceeds Rs. 15,000 or the average converted grain rents are over Rs. 8,000. In cases in which the holdings of a circle are small and the number of khata entries abnormally large, the fact should be reported to the Court of Wards in order that special assistance in the maintenance of his accounts may be given to the ziladar.

The officer applying for sanction shall submit a statement showing the present and proposed scales and explain the reason for the proposal.

50. The Court of Wards reserves power to appoint managers, assistant managers and head clerks of managers' offices under the special scheme. Commissioners are empowered to appoint to all other posts carrying a remuneration of Rs. 50 and over, except those of sarbarahkar, the appointment to which rests with Collectors. District officers are empowered to appoint sarbarahkars and other officials receiving pay below Rs. 50 and above Rs. 15. Managers are empowered to appoint to posts with a remuneration of Rs. 15 and under. Subject to the above provisions Commissioners and district officers shall make appointments in their own offices.

Chapter III.—General management.

62.

Examination of assets.

- 63.** On assuming charge of an estate, the rent roll and general assets to be examined assets of the estate should be carefully examined. after assumption of charge. In estates which have been mis-managed it will often be found that rents are below the average prevailing in the neighbourhood and that legitimate sources of income, such as culturable land are untouched. Occasionally it may be found that rack renting prevails and a reduction of rent is advisable in the interests of good management. In such cases a report should be submitted to the Court of Wards for orders.

Preparation of permanent records.

- 64.** Arrangements should be made with the patwaris to obtain a copy of the khatauni relating to the villages and mahals included in the estate. This will serve as a basis for the preparation of the bali-khata, and as a permanent record of the khasra numbers and areas of the fields, the nature of the tenures, the classification of the land by tenants' holdings, proprietary cultivation or rent free plots and its distribution into culturable areas, groves, &c. The register will be current for the term of settlement, after which a fresh copy should be obtained.

- 65.** A register of immovable property of the estate shall be maintained in form 15 at head quarters. The first entries in this register shall be the villages, mahals and shares. Then shall follow a general list of immovable property, such as houses and other buildings, groves, tanks, &c.

Scattered trees and patches of forest or scrub jungle standing on land in possession of the estate shall be presumed to be the property of the estate unless the contrary is shown. These need not be recorded in the register as the patwari's record is ordinarily sufficient to establish the title of the estate.

- 66.** A register in form 16 should be maintained by the ziladar for live stock and valuable property such as carriages and furniture belonging to the estate. Animals and property in the personal possession of the wards should not be included.

NOTE.—In large estates an official other than a ziladar may be appointed by the special manager to maintain this register.

Under section 36 of the Act loans to another estate for periods not exceeding one year can be granted on promissory notes.

127. In the case of state loans the conditions will be prescribed according to the special circumstances of the case.

128. The district officer in charge of an indebted estate shall submit an account current annually with his management report, having had it previously verified by the district officer in charge of the lending estate or by the creditor.

Except in the case of state loans, for which no account is required, the exemplar form no. 36 should be followed.

Register of loans to and by the estate.

129. For the purpose of keeping a record of all the loans due to and by an estate, a register in form 37 shall be maintained in two volumes, one for loans taken, and the other for loans advanced by, an estate. Each register shall, moreover, be subdivided into three parts for—

- (a) loans secured by usufructuary mortgage;
- (b) loans secured by mortgage without possession of property;
- (c) all other kinds of debts other than takavi advances.

Chapter VII.—Works of improvement.

130. In determining the sum which can be devoted annually to the improvement of property under the Court of Wards a clear distinction must be drawn between indebted and unencumbered estates. In the former the first duty of the management is to liquidate the debts and until satisfactory progress has been made in this direction little expenditure can be devoted to improvements other than repairs of buildings or construction of absolutely necessary works of irrigation, &c. When the estate is free from debt, a portion of the surplus after meeting necessary expenses, should be devoted to improvements; but expenditure should under no circumstances be so heavy as to preclude the building up of a reserve fund to meet temporary loss of income or extraordinary demands. The Commissioner and district officer should carefully scrutinize the budgets passed or forwarded by them to satisfy themselves that the principles of this rule are observed.

131. Ordinarily in drawing up a programme of improvements priority should be given to objects likely to improve the agricultural condition of the estate. Of these the most beneficial are works of irrigation.

Other objects which may be usefully undertaken and are within the means of nearly all unencumbered estates are enumerated in rule 132 below. The house property of the estate should be kept in proper repair; but the construction of new family residences or other important buildings should as a rule only be undertaken when forced on the management by the bad state of repair of existing buildings. Works of a public rather than a private nature, such as the construction of school buildings, metalled roads or bridges, should only in special circumstances be undertaken, to meet the convenience of tenants and residents on the estate.

132. District officers are responsible that the resources of estates are not expended in starting model farms or carrying out experiments in agriculture, except under professional supervision and where there is a reasonable prospect that the results will repay the initial outlay. In the case of proposals for such improvements and in all questions connected with agriculture, cattle-breeding and cognate matters, district officers and managers shall communicate with the department of Land Records and Agriculture and shall submit annually direct to that department by 1st November a brief report on all such subjects, to enable the Director to submit his annual note to the Court of Wards for incorporation with provincial report. This report shall be grouped under the following heads, no mention being made of heads under which there is nothing to report:—

- (i) Improvements in water supply and drainage;
- (ii) Supply of seed grains to cultivators;
- (iii) Introduction of new crops and varieties;
- (iv) Introduction of new and improved implements;
- (v) Reclamation of waste land;
- (vi) Tree-planting;
- (vii) Stock-breeding;
- (viii) Miscellaneous.

133. District officers and managers shall endeavour to do whatever may be practicable, without unduly annoying the people, to improve the sanitation of villages and thereby the health of the tenantry. Much may be done to improve the supply of potable water by construction of platforms and shelters to drinking wells, and by improving their surroundings.

Tenants' improvements.

134. In addition to the improvements made by the estate, tenants should be encouraged to make improvements themselves, e.g., the Court of Wards can assist in the construction of wells by the grant of fuel, material, or by an advance in cash.

If a money advance is given an enhancement of rent to re-imburse the estate should ordinarily be stipulated for. All improvement by tenants shall be recorded in a register in form 38.

In Oudh before the written consent required by the Rent Act is given, the tenant shall be called upon to state the cost of the improvement and to enter into an agreement that any sum advanced by the estate or the value of any assistance given shall be set off against any subsequent claim to compensation. The sum thus claimed shall be shown in its appropriate column of the register. In the Agra Province unless such an agreement can be entered into, an inquiry shall be made on the spot after the completion of the work and its approximate cost ascertained.

Procedure.

135. Except in cases of serious emergency no work other than a petty work, the probable cost of which is less than Rs. 100 shall be begun until a plan and detailed estimate for the work have been prepared and these have been sanctioned by—

- (a) the manager if the work is to cost less than Rs. 500;
- (b) the district officer if the work is to cost not less than Rs. 500 and not more than Rs. 1,000;
- (c) the Commissioner if the work is to cost more than Rs. 1,000 but not more than Rs. 5,000; and
- (d) the Court of Wards if the work is to cost over Rs. 5,000.

The powers to sanction estimates vested by this rule are not to be exercised in such a manner as to cause works to be sanctioned piecemeal.

which taken together, would require the sanction of a higher authority. A project which is essentially in complete agreement with the district officer and which together with the extensions would be within the powers of a sanctioning authority must not be sanctioned by the district officer, but be submitted to the authority who has power to sanction the entire project.

Note.—The fact that the district officer has sanctioned a project does not mean that he is not sufficient authority to sanction it.

136. It is the duty of the Court of Wards' Engineer and assist district officer, and manager, in the preparation of designs and estimates of works of importance. All plans and estimates for works costing Rs. 2,000 and over should be submitted to the Court of Wards' Engineer before sanction; and no work likely to exceed this sum should be undertaken without his professional approval.

In exceptional cases his advice may be obtained for projects costing less than Rs. 2,000.

Plans for works costing not more than Rs. 5,000 should ordinarily be prepared by the sub-overseer employed by the Court of Wards in the district; the plans for works costing Rs. 5,000 and over where the district officer considers it desirable will ordinarily be drawn up by the Court of Wards' Engineer at the charge of the fee to be named. Standard plans should be prepared as far as practicable for buildings, such as schools, quarters, stables, &c.

137. The advice of the irrigation department should be obtained in all cases of large irrigation and drainage projects; and in the case of small projects also if the district officers consider it desirable.

Similarly agricultural works, such as the construction of wells and the installation of pumping machines, should ordinarily be referred to the agricultural department and not to the Court of Wards' Engineer.

138. The manager is responsible for the execution of works undertaken by an estate.

139. The Court of Wards' Engineer as an advisory officer is empowered to inspect all works in his department before they are completed. He will not issue orders directly to sub-overseers or contractors but will forward a note to the district officer under whose orders the instructions therein contained shall receive attention. If the Court of Wards' Engineer finds that his advice is disregarded without sufficient reason he may refer the matter to the Commissioner for decision.

The Court of Wards' Engineer should ordinarily be asked to inspect only works costing more than Rs. 2,000.

Correspondence regarding works will be between the district officer and Court of Wards' Engineer.

140. In the case of any work costing over Rs. 1,000 and in any other cases in which the manager thinks it advisable, a notice calling for tenders shall be posted at the Court of Wards' office, the district office and the tahsil office of the tahsil in which the work is to be constructed, and at the village chaupal.

141. (a) When a contract for a work estimated to cost over Rs. 1,000 is given security for the performance of the work shall be taken. In the case of the works estimated to cost less than this sum security should ordinarily be taken; but this is left to the discretion of the manager or district officer.

(b) Where security is taken for the completion of a work estimated to cost less than Rs. 1,000, the security deposit shall be Rs. 50. In the case of works estimated to cost Rs. 1,000 or over, the security deposit of the contractor shall be at the rate of Rs. 50 per Rs. 1,000 or part thereof.

142. When a contract is given a deed of contract in form 39 should be drawn up and executed by the manager on behalf of the Court of Wards, and by the contractor. If found more suitable for any particular work any of the forms of contract prescribed in the Public Works department may be employed.

Security deposited for the fulfilment of a contract shall be accounted for in the register prescribed by rule 279.

143. The terms of a contract once sanctioned may not be varied so as to increase the cost of the work, save with the permission of the sanctioning authority.

Register of works.

144. The estimate for each work undertaken by the manager shall, as soon as it has been sanctioned by the competent sanctioning authority, be entered in a register of works to be kept up in form 40 in the manager's office. The register shall be divided into two portions for—

- (a) works of improvement; and
- (b) other works;

and a separate page shall be given for each work.

Measurement book.

145. The overseer or other officer deputed to measure the works periodically shall keep up a measurement-book in form 41. All quantities and totals shall be entered at once as the measurements are taken. Measurements and calculations, when checked, shall be initialled by the checking officer. The entries in the measurement book shall be cancelled by the words "Paid by cheque number.....dated....." by the accountant when payment has been made on account of the items concerned. Measurement books, when complete, shall be filed in the head office.

146. Before final payment for a work is made, a completion certificate shall be signed, in cases in which the work costs over Rs. 500 by the manager or assistant manager, in other cases by the sub-overseer or other official deputed by the manager. Completion certificates signed by the manager or the assistant manager shall be submitted to the district officer. Others shall be submitted to the district officer through the assistant manager; or in districts under the special scheme, to the manager. They shall be to the effect that the officer signing them has examined the work and that it has been properly carried out in accordance with the sanctioned plans and estimates. If it has not been carried out in accordance with the plans and estimates, an explanation of the difference shall be given.

In cases where the work has been inspected by the Court of Wards' engineer, the completion certificate should not be signed until that officer's note is received.

147. In the case of work carried out by daily labour and not by contract, the officer in charge of the work shall maintain a muster-roll in form 42. He shall pay the amount due on this roll out of his permanent advance, which he shall recoup in the usual way by means of a bill in form 72 supported by the muster-roll. When pay is distributed on a muster-roll no separate acquittance roll is necessary.

148. All stores or movable articles shall be entered as they are received in a store register in form 43, or register of movable articles in form 44, in which also all issues shall be entered as they occur. Articles to be used immediately on purchase need not be entered in the store register.

149. The store register shall be balanced at least once a month and the balance verified by the official who keeps up the book. He shall sign the register in token of his having made the verification.

150. A reference to the bill for payment of the stores concerned shall be made in the page of the store register and register of movable articles concerned.

151. The store register and the register of movable articles shall be verified by the manager or assistant manager once a year.

If the Commissioner considers the case to be one in which important issues are involved, or in which legal advice is required, he may submit it to the Legal Remembrancer. The ordinary procedure laid down in the Legal Remembrancer's Manual regarding the institution and defence of Court of Wards' suits will be then followed, and in accordance with rule 311 all communications asking for instructions on the conduct of the case will be forwarded direct to the Legal Remembrancer. If the Commissioner considers the case as one with which he is competent to deal, he will sanction the institution or defence or compromise of the suit and will issue the necessary instructions regarding the conduct of the case. All appeals in such cases shall be filed subject to his orders. Provided that no appeal shall be filed in the High Court or Court of Appeal in Commissioner without the sanction of the Court of Wards.

Audit.

189. The accounts of all estates having an estimated gross income of Rs. 10,000 per annum or over shall be audited once a year, as far as possible, by or under the orders of the Examiner of Local Fund Accounts. Temporary fluctuations in the income of an estate shall not affect the necessity or otherwise for an audit. But if it is found that the average gross income for the preceding three years has fallen below Rs. 10,000, the accounts of the estate should no longer be audited.

The accounts of any estate, however low its income, may be audited under the special orders of the Court of Wards.

Estates taken under management after the 31st of March of any year need not be audited for that year.

190. To meet the cost of audit the estate shall pay a fee calculated at the rate of twelve annas per cent. on its net income to the nearest Rs. 100 for the year of which the accounts have been audited.

To calculate the net income for the purpose of this rule amounts credited under heads III, V(4), VI(1) and (3), VII(1), VIII, X(3), (4), (5) and (6) of form 91, the amount of loans taken for payment of land revenue, repayment of debt, or purchase of immovable property, and sums received on account of political pensions shall be excluded from the gross receipts.

The audit fee is subject to a minimum of Rs. 50.

191. For purposes of audit all registers and documents prescribed under this Manual shall be produced. Should other papers be required the auditors shall submit a requisition for them. All papers for which a requisition in writing is so submitted shall be given, unless the district officer, for reasons to be recorded in writing, thinks they should be refused. A copy of such orders shall be furnished to the auditors in every case.

192. After each audit of its accounts by the local audit staff, the manager shall deal promptly with the objection statement which is appended to the audit note. He shall also, as soon as possible after the receipt of the note, consider the objections and suggestions made by the Examiner, and decide upon the action to be taken in regard thereto. The action so taken shall be indicated on an interleaved copy, or on the margin of the audit note, and the remarks shall be signed by the manager, and, after review, also by the district officer. This annotated copy shall be kept and produced for the information of inspecting officers at their next visit. Another annotated copy shall be submitted to the Court of Wards through the Commissioner for information whenever the district officer is requested to report to the Court of Wards what action he has taken on the audit.

193. Whenever an embezzlement of Court of Wards' moneys is discovered, inquiry shall at once be instituted by the district officer, and the fact of the embezzlement shall be immediately reported by him direct to the Examiner of Local Fund Accounts, who shall, if necessary, investigate the matter. Intimation shall also be sent to the Commissioner. When the matter has been fully enquired into, the Commissioner shall, if he deems it necessary, submit a complete report to the Court of Wards, showing the total sum of money misappropriated, the method in which the embezzlement was effected, and the steps taken to recover the money and to punish the offenders.

Chapter XII.

194. The rules in Chapters XII to XVI inclusive apply in their entirety to all estates under a special scheme of management. In other estates, the district officer may, with the sanction of the Commissioner, omit any registers considered unsuitable.

Ziladars' accounts.

Bahikhata.

195. On the assumption of the management of an estate by the Court of Wards a bahikhata shall be prepared in the form 50. A separate volume of the register shall be opened for each hadbast village of the estate, unless for special reasons the Court of Wards decides otherwise. The entries in columns 2 to 7 shall be posted from the patwari's records and the previous records of the estate (if any).

196. At the beginning of each year the new bahikhata shall be prepared from that of the previous year. The entries in columns 2, 3, 4 and 7 shall be checked by the ziladar with the patwari's khatauni, and the ziladar and patwari shall certify at the end of each volume that this check has been carried out. Any discrepancy discovered shall be reported to the manager for orders.

When village headmen or other tenants are permitted to hold land at favourable rates, in consideration of services rendered by them to the Court of Wards, the actual rents charged should be entered, a note being made in the remarks column of the bahikhata of the rent which would ordinarily be payable if the lands were let to tenants not so privileged. This will facilitate the adjustment of rent in the event of such privileged tenants being removed from office under the Court of Wards.

197. No changes or additions shall be made in the entry of demand in column 7 of the bahikhata except under orders of the manager. On receipt of such orders the ziladar shall make the necessary alterations, entering details of the new demand under the old entry and noting the date from which the change is to take effect in the remarks column of the register. In cases of enhancement and abatement by order of a court the necessary alterations will be communicated to the ziladar by the manager whose order will be sufficient authority. The manager will also communicate to the ziladar cases in which decrees have been obtained, and the amounts for realization for entry in the bahikhata.

198. Advance collections, if there are any, shall be brought to account in columns 8 to 11 of the bahikhata in the usual way, the surplus balance being carried forward to the credit of the tenant when the bahikhata is opened for the next year.

NOTE.—Entries relating to advance collections shall be shown in red ink.

199. No entry shall be made in column 12 of the bahikhata except under the orders of the manager.

Treatment of irrecoverable demands.

(Note — Vide rule 22.)

NOTE.—Where the Collector of a district not under the special scheme of management so directs, the duties assigned to the manager under rules 197 and 199 may be performed by the assistant manager.

200. The collections on account of cash rents and cesses and on account of rents in kind and cesses respectively, will be credited against the combined demand on account of rent and cesses and the balances will similarly be marked out as against the combined demand. These balances will form the basis of the arrears entries in the bahikhata of the following year.

201. In Oudh a register in form 51 shall be maintained in which the *pukhtadari* demands of a village shall be entered. Columns 2 to 6 of the form shall be filled in from the patwari's khewat. Columns 7 and 8 shall represent the apportionment (*phant bandi*) of the rent between the Court of Wards and the other co-sharers; only the share of the Court of Wards shall be shown in the bahikhata.

202. After the bahikhata for the year has been prepared by the ziladar, it shall be examined by the sarbarahkar, who shall check at least 50 per cent. of the entries in detail and generally satisfy himself that all demands have been included and all arrear demands brought forward, and that surplus collections have been correctly noted from the bahikhata of the previous year. He should see that the bahikhata entries agree with the *labuliat* coupons and counterfoils of receipts and that they are properly

brought forward to the classified collection register. He shall then endorse a certificate on each bahikhata to the effect that it has been checked. The manager, when on tour, shall scrutinize the bahikhata and check as many of the entries as he conveniently can.

Crop rentals.

203. At the time of appraisement the zildar shall take with him form 52 and shall enter therein the produce of each field in rotation as it is appraised, together with the other details required in the form. At the end of the day he shall fill in the counterfoil from the entries already made in the field, and shall forward the foils on the same day to the sarbarahkar. These foils shall be signed by the appraisers, the patwari and the zildar, and dated.

204. On receipt of the foils, the sarbarahkar shall examine at once, and shall endeavour to check on the spot as many as possible of the appraisements—completed or in progress—of the zildars under him. He shall note in his diary and also on all foils checked by him, what proportion of the whole he has checked, initialling all entries so checked by him on the spot. After satisfying himself of the general correctness of the appraisement, he shall forward the foils to the manager or assistant manager for orders.

205. The manager or assistant manager shall return the foils with his orders to the zildar who shall paste them on to the counterfoils in his possession. From form 52 the zildar shall prepare the khatauni register of crop rentals in form 53 and from this register he shall carry the cash demand into the bahikhata after the rate for conversion has been sanctioned and notified to him by the manager or assistant manager.

206. The first four columns of form 53 should be filled in by the zildar from the patwari's khatauni before appraisement and the patwari will be required to certify on this register—

- (1) that all holdings under grain rents have been duly entered in it, and
- (2) after appraisement—that all fields on which no crop is shown were, in fact, fallow, or that the crop on them failed entirely.

NOTE.—The orders regarding the presence of the patwari when the crop is appraised or the produce is divided are contained in rule 136 of Board's circular I—VII.

Sayar and manorial dues.

207. A record of the permanent sources of sayar and manorial dues shall be maintained in form 54 by each zildar for his circle. In this all immoveable property from which an income is derived, other than holdings recorded in the bahikhata, shall find a place. A sufficient number of pages shall be allotted to each village. When sayar or manorial dues are dealt with by the manager at head quarters, and relate to more than one village, a similar register shall be maintained in the head office.

The manager should satisfy himself of the correctness and completeness of this register at his inspection, and use it as a check on the receipts from auction sales, &c., as shown in the zildar's reports (form 55).

208. In all cases in which the zildar auctions or otherwise disposes of sayar income, manorial dues, or other miscellaneous demands, he shall submit for the orders of the manager or the assistant manager a statement on the counterfoil of form 55. After the manager or assistant manager has passed orders, this will be returned to the zildar who will paste it on to the foil in his possession and bring the demand sanctioned on to the bahikhata.

The manager is empowered to delegate the power to sanction such sales to the assistant manager or sarbarahkar up to a limit of Rs. 30 and Rs. 5, respectively, in each case. All sales sanctioned by the assistant manager or sarbarahkar shall be reported for the information of the manager.

Collections.

209. Demand shall be collected by the zildar of the circle concerned, and for every sum received by him a receipt given by printed receipt shall be given.

Tenants shall be warned when the charge of the estate is assumed and, if necessary, from time to time afterwards, by beat of drum or otherwise, not to pay a demand to the ziladar without obtaining a printed receipt, and in no circumstances to pay any amount to a peon.

210. On receiving any money due, the ziladar shall fill up a receipt and counterfoil in form 56 and hand the receipt with the coupon attached to the tenant who pays the money. He shall not fill up the coupon.

211. The ziladar shall at the same time enter the payment against the name of the tenant in the bahikhata.

212. In the case of *batai* rents the word "*batai*" should be written across the last column of the receipt instead of a cash entry. The giving of the receipt should not be delayed until the cash value of the produce has been decided.

213. A daily progressive total of the money received shall be kept in the ziladar's receipt book (form 56) in the place provided at the foot of each page. The total shall be taken at once, and not put off till the end of the day. At the end of the day the progressive total of the money received for the day shall be entered on the last counterfoil used.

The manager or other inspecting officer visiting a circle shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

214. The ziladar shall issue receipts for all amounts paid at head quarters which are notified to him. In such cases he shall write across the foil and counterfoil of the receipt in red ink:—Paid at head quarters by chalan no.....dated.....

Entries in forms 50, 57 and 58 with regard to head quarter payments, shall also be made in red ink, and in form 60 the detail of the amount shall be entered in the column of remarks.

The progressive total taken on the face of receipts shall not include the amounts of receipts issued for payments at *sadr*. For these a separate progressive total shall be entered in red ink on the back of the receipts.

215. At the close of the working day the ziladar shall check the money in his possession with the total at the foot of the last counterfoil of the day in question. He shall then from his receipt book enter the total collections made during the day in the remittance register in form 57, a copy of which register shall be sent on the 8th, 15th, 23rd and last day of each month to the head office for entry of the amounts in the cash book and check with the treasury pass book. Having done this he shall classify the receipts in a classified collection register in form 58 to be kept by him for each village.

If found more convenient one register may be kept, separate pages being allotted for each village.

216. In the classified collection register (form 58) the classification to be followed is printed at the top of the columns. Takavi, principal and interest, should be shown in the blank columns. The ziladar shall enter the items from his counterfoils for the day, one after the other, in the part for each village, quoting the serial number of the receipt in column 1 and entering the amount paid in the appropriate columns. The columns shall be totalled and weekly and yearly progressive totals taken. Where, owing to the large number of collections, the ziladar is unable to write up the classified collection register on the day of collection, he shall write it up at the earliest possible moment, and in no case delay beyond the date on which the next return of disposals is due for despatch to the head quarters.

217. On the 8th, 15th, 23rd and last day of each month the ziladar shall bring forward the total collections of each village up to those dates in a collection abstract in form 58, columns 1 and 2 of which shall be altered in manuscript to "date" and "name of village" respectively. This abstract he shall total on the last day of the month for the purpose

Remittances.

Ziladar not to have more than amount of his security.

218. No ziladar shall ordinarily have a larger sum of money in his hands at any one time than the amount of his security.

219. Once a week, or more frequently if the cash balance in his hands approaches the limit laid down in rule 218, the ziladar shall remit his collection to the treasury with a chalan in duplicate in form 59. The collections shall be sent intact and in no circumstances whatever shall any portion of them be kept back by the ziladar.

Immediately on despatch of the remittance to the tahsil treasury the ziladar shall despatch the third foil to the Court of Wards' office. This shall, on the following day, be compared with the tahsil siyaha at the head quarters by the treasury officer, who shall endorse thereupon whether the remittance is entered in the siyaha or not and return the chalan with his endorsement to the manager.

220. On return of one copy of the chalan from the treasury the ziladar shall enter its number and date in column 6 of the remittance register and paste it to its counterfoil.

Progress statement.

221. A progress statement for each circle in form 60 shall be filled in by the ziladar and submitted to head quarters once a month for account purposes. The demand shall be taken from statement 62 of the previous year.

The manager may, for his own information, call for these statements at shorter intervals, the headings of columns 4 and 5 being filled in under his orders.

On discovery of a misclassification in his accounts affecting a progress statement in form 60 already submitted, the ziladar shall at once report the misclassification and the necessary correction to the head office, where the accounts will be corrected by means of a transfer entry sheet (form 69).

Remission proposals.

222. Proposals for remissions shall be prepared by the ziladar in form 61 before the first of October in each year. Every item of the proposals shall be checked by the sarbarahkar and shall be laid, before the manager or other superior officer when he visits the ziladar's circle concerned. This officer shall check on the spot as many irrecoverable items, not being time-barred, as he conveniently can and shall record his orders in columns 14 and 15 of the form of proposal. The form shall then be sent to the head quarters and shall be the basis of the manager's proposals for remissions. On receipt of the form with sanction the ziladar shall enter the remission in the bahikhata and return the form with his report of compliance.

Annual statement of demands and balances.

223. A list of demands and balances shall be made out by each ziladar at the close of the year (form 62) for the tenants in his circle. The list shall be in two parts, the first for current and the second for arrear demands and balances. It shall be written up from his bahikhata, totalled and submitted to the head office, where the figures for each circle shall be consolidated in a similar form for the whole estate and the demands arising in the head office included.

The statement can be begun by the ziladar before the close of the year, each tenant whose demand has been paid in full being so shown. There will then only remain for entry after the close of the year such tenants as are in arrear, and their number will presumably be few in each circle. Even in their case the columns of demand can be written up before the close of the year, the balances only being left for subsequent entry.

Inspection.

224. Inspecting officers, when they visit a circle, should examine the classified collection register (form 58) and check as many as possible of the entries at random with the counterfoils of the receipts. They shall also check the details of the remittance register (form 57) with the totals of the receipt books (form 56) and the treasury chalans. The manager when visiting a circle, shall check at least 5 per cent of the entries in a similar way. Every entry checked shall be initialed and dated by the checking officer.

225. A manager or other inspecting officer shall obtain from the tenants and examine a fair proportion of the receipts to be examined by inspecting officers receipts given by the ziladar.

Having checked the receipt and seen that the items are correct, the officer shall fill up the columns of the coupon and shall also note the amount stated by the tenant to have been paid by him where this does not agree with the amount entered in the receipt. He should take the coupon for comparison with the counterfoil in the hands of the ziladar and with the bahikhata, and return the receipt to the tenant after signing it on the back.

Assistant managers or sarbarahkars shall thus check at least 5 per cent. of the receipts granted by ziladars and send the coupons after verification fortnightly to the head office with their diaries.

Coupons examined by the manager may be destroyed in cases in which no discrepancy has been detected.

Chapter XIII.—Head office accounts.

Head office account keeping.

226. No payments shall ordinarily be received at the head office, nor shall any cash chest be kept there. If any person brings money to be paid at the head office, the accountant shall prepare a chalan (form 59) in triplicate, and shall send the payer with the chalan direct to the head quarter's treasury, where the money shall be credited in the ordinary way, one copy of the chalan being retained in the treasury, the second being given to the payer, and the third being returned to the head office. On receipt of this last the amount shall be brought to credit in the cash book. Intimation of the payment shall also be sent to the ziladar concerned for action under rule 214. In the case of payments at the head office by money order, the amount shall be similarly dealt with.

227. All money received or paid into the estate shall be brought to account without any reservation in the cash book (form 63). Payments made at the head quarters treasury shall be entered directly they are made. Collections made by ziladars shall be entered at once on receipt of the weekly statement in form 57.

228. The cash book shall be maintained in as many volumes as may be necessary, one volume being allotted to each estate, and one for the purposes of the head office establishment and other charges, including expenditure common to all estates. Any balance of contributions from estates shown in this latter volume as remaining undisbursed at the end of the year should be rateably credited by means of transfer entries in the books of the estates concerned.

The same principle shall be applied in the case of establishment and other fixed charges common to two or more estates but not all; a separate record shall be kept to show the expenditure on account of each such common charge and the balance shall be refunded (not necessarily proportionately) to the contributing estates at the end of the year.

229. The cash book shall be closed and balanced at the end of each month, and shall be signed by the manager. It shall at the same time be compared with the treasury pass book, and any differences shall be explained and accounted for in a footnote to the cash book.

Expenditure.

230. Any statement of account or other voucher presented as a claim for money shall be received and examined in the manager's office, and, if the claim be admissible, the authority good and the signature in order, the manager shall make an order for payment at the foot of the voucher and sign it.

231. It is the duty of the head office to see that no charge is paid twice over and that the budget allotments are not exceeded.

232. Payment orders shall on no account be made on files. Each payment order shall be made on a voucher, a note being made in the file concerned, referring to the number and month of the guard file in which the voucher is filed. A reference shall also be made on the back of the voucher to the file to which it appertains.

233. After the order to pay has been entered on the voucher and passed, a cheque shall be drawn up in the name of the payee, and an entry shall be made in the general cash book (form 63). The cheque shall then be given to the payee and the voucher stamped "Paid by cheque no., dated the....." and filed for purpose of audit.

Cheques.

234. Cheques drawn on a treasury shall be in counterfoil in form 64. Each cheque book shall contain a hundred embossed cheques, and each cheque shall bear the book number and a serial number. Cheque books shall be kept in the custody of the head clerk or other official, not being an accountant, appointed by the manager. The counterfoils of used cheque books shall be retained by the same official till the close of the following year or till the conclusion of the audit concerning them, whichever is the sooner. They shall then be consigned to the record room. The drawing officer shall notify to the treasury upon which he draws the number of the cheque book which he from time to time brings into use.

235. When a drawing officer receives a new or partially used cheque book, he shall cause the cheques to be counted, and a note to be recorded on the back of the book:—
"This cheque book no.contains..... cheques."

236. When the drawing officer is relieved of his office, he shall take a receipt for the number of unused cheques and cheque books made over. He shall also forward to the treasury concerned a specimen of the relieving officer's signature.

237. All cheques shall be signed by the manager. All cheques for amounts over Rs. 500 shall also be signed by the district officer, or when he is on tour, by such gazetted officer at head-quarters as he may appoint in writing for the purpose.

238. Cheques shall, as far as possible, be drawn in favour of the person to whom the money is due. No cheque shall, except for very special reason, be signed until it is required for immediate delivery to the person to whom the money is to be paid.

239. When a cheque is being prepared for signature, an amount, a little in excess of the sum for which the cheque is drawn, shall be written across it as a preventive against fraud.

Example.—Across a cheque drawn for Rs. 50-8-0 will be written "Under rupees fifty-one."

240. Cheques issued, which are not cashed within three months of the date of issue, shall not be received for encashment until they have been redated. The alteration of date shall be initialled by the drawing officer; a note of the fact of redating shall be entered in the cash book against the original transaction, and upon the counterfoil of the cheque itself. The alteration will in no way affect the accounts, and no further entries need be made.

241. When a signed cheque is cancelled, it shall be enfaced or stamped "Cancelled" by the drawing officer. The fact of cancellation shall be noted in red ink, under the initials of the drawer of the cheque, upon the counterfoil and if the payment order was also wrong, also across the order of payment which has been enfaced upon the voucher.

242. When a cheque is cancelled before the cash book has been closed for the month the entry in the cash book and also in the classified abstract shall be struck out in red ink under the initials of the manager. When the cheque is cancelled after the cash book has been closed, the amount of the cheque shall be entered in the cash book of the day of cancellation as a miscellaneous receipt and carried into the classified

243. Cancelled cheques shall be carefully retained attached to their respective counterfoils until the accounts for the period to which they relate have been audited, when they shall be destroyed by, or in the presence of, the audit officer, who shall certify upon the counterfoil that the cheque has been so destroyed.

Pass book.

244. The manager shall have a treasury pass book in form 65 in which all sums paid in on account of the estate and all payments made on cheques will be entered. At the close of each month the entries on each side of the pass book will be totalled and a balance struck and expressed in words and figures under the signature of the treasury officer. *No entry and no mark of any kind shall be made in the pass-book by any official whatsoever of the estate. The entries shall be made in the treasury only.*

245. At the end of each month the receipts and expenditure shown in the pass book shall be checked, the former by means of copies of form 57 and the latter with the cash book, and cheques outstanding shall be noted in detail at the foot of the cash book in accordance with rule 229. If any cheque appears to be unduly long outstanding, inquiries regarding it shall be made; and if it cannot be traced, it shall be stopped by order of the drawing officer, and the charge it represents cancelled and adjusted in accordance with the procedure of rule 242 as if the cheque had been cancelled.

246. The pass book shall ordinarily be sent to the treasury to be made up every week.

Classified abstracts.

247. For the purpose of classifying income and expenditure, two volumes shall be maintained in forms 66 and 67. In the former entries shall be made as prescribed in rule 248. In the latter a separate page shall be opened for each head of account, and the items appertaining to these heads for each day shall be taken, either as they occur or in the aggregate for the day, from the general cash book, and entered in the appropriate columns of the abstract. Totals and progressive totals shall be made under each head of the abstract, any transfer entries which may have been made in accordance with rules 249 and 250 being taken into account.

Explanation I.—"Head of account" in this rule means the minor head or, where there is no minor head, the major head in columns 1 and 5 of the budget statement (form 84). No head of account other than those contained in the budget shall be opened without the sanction of the Court of Wards.

Explanation II.—For purposes of checking with the budget the expenditure on account of establishment and other head-quarters charges met by contribution from the various estates, a separate volume of the classified abstract shall be used.

Progress statement.

248. On receipt of form 60 from the ziladar the totals shall be entered in form 66. After the combined total for the estate has been obtained transfer entries shall be made (vide rule 250), and the progressive total thus obtained posted in form 68, which shall be monthly laid before the district officer for his information and orders.

Transfer entries and adjustments.

249. (1) Transfer entries, that is entries intended to transfer an amount from one head of account to another, shall be made when it is necessary—

(a) to correct an error of classification in the original accounts;

(b) to account, by debit or credit to its proper head, for inter-departmental and other transactions in which cash does not actually change hands.

(2) Adjustments shall be made when it is necessary to adjust a portion of an advance unused and repaid, the recovery of an over-payment or the like.

250. (1) When a transfer entry is required to be made, the details thereof shall be entered in a list of transfer entries in form 69. At the end of the month the adjustments shall be made at the foot of forms 66 and 67, the amounts being deducted from the head from which, and added to the head to which, they are transferred.

(2) When an item has to be adjusted, the money, on receipt or payment, shall be brought to account in the cash book in the usual way as a receipt or payment as the case may be, and the item carried into forms 66 and 67. All receipts in adjustment of account shall be credited to the head "Miscellaneous." The item shall also be entered in the list of transfer entries (form 69), the head "Miscellaneous" and the head under which the item was originally brought to account, both being entered in column 2. At the end of the month the adjustment shall be made by deducting the amount from both these heads in the classified abstract. Transfer entry sheets shall, after the necessary adjustment has been made in the accounts, be filed with the monthly statement in form 68 of the month to which they refer.

Explanation.—Neither transfer entries nor adjustments can be made in the accounts of a year after those accounts have been finally closed.

Chapter XIV.—Salaries and other charges.

Salaries.

251. A pay bill of the establishment shall be prepared in form 70 with full detail of names, and shall show separately in column 4 the salary or leave allowance claimed for each person for the month, whether drawn or not, and in column 5 any amount not drawn but held over for and against payment. When salary is drawn for a portion of a month only, the rate at which it is drawn and the number of the days for which it is claimed, shall be stated either against the name of the employee in the body of the bill, or in a note at the foot of the page.

The pay of all temporary employees who are entertained under sanction shall be billed for separately in the same form, the sanction being quoted.

252. If any member of the establishment has been granted leave, the details of the leave, and arrangements made, shall be entered in the memorandum provided at the foot of the bill (form 70). If no leave of any kind has been granted, a certificate by the manager to this effect shall be given in the pay bill.

253. From each bill, before it is presented for payment, an acquittance roll in form 71 shall be drawn up; and when the pay is distributed to the staff, the receipt of each person shall be taken in the proper column, the receipt stamp required for amounts over Rs. 20 being affixed to the roll.

Payments acknowledged by the seals or marks of illiterate payees shall be attested by the initials of the disbursing officer.

254. The head of the office is personally responsible for every salary drawn on a bill signed by him, until he has paid it to the person entitled to receive it and has had the acquittance roll signed and, if necessary, stamped by the payee. If the payee does not present himself before the end of the month, the amount drawn for him shall be refunded by short drawal in the next bill; his salary can be drawn anew under rule 256, when he presents himself to receive it. Pay shall not, in any circumstances, be placed in deposit.

255. The head of the office shall not re-establishment by giving or less, than the sanctioned pay.

The principles of article 335 of the Act apply to leave vacancies.

256. Arrear pay shall be drawn but in a separate bill from which it was refunded by deduction of new allowance. Such bills may be drawn for as many items as are necessary.

Before the bill is paid, the items shall be checked with any previous bills that may have been paid for the same month, to see that no payment has been made twice over.

Recurring charges.

257. When an estate incurs recurring charges on account of rents, &c., they shall, as far as possible, be drawn on establishment bills along with the pay of the official concerned.

Contingent expenditure.

258. Contingent expenditure includes all charges other than those for establishment or travelling allowance.

All recoupments of contingent expenditure shall be drawn upon a bill in form 72.

259. Vouchers shall be numbered for each month in one consecutive series. Sub-vouchers shall be numbered consecutively for each bill and attached to the bill concerned.

Sub-vouchers to be attached to bills concerned.

NOTE.—Acquittance rolls are sub-vouchers of establishment bills.

Travelling allowance.

260. When in any circumstances an officer is required to make a journey for which travelling allowance is given him, the amount allowed shall not exceed that admissible to officers of Government of a similar standing, except where special rates have been sanctioned by the Court of Wards. The allowance shall be drawn on a bill in form 73 or 74 as the case requires. Where the travelling allowance is based on actual expenses these should be noted in the bill.

261. The rules prescribed in Part XI of the Civil Service Regulations shall apply generally to all officials under the Court of Wards, the words "Court of Wards" being substituted for the words "Local Government" where the latter words occur in the Civil Service Regulations.

Article 1039, Civil Service Regulations, does not, however, apply to managers and assistant managers.

262. No travelling allowance of any kind except allowances for railway journeys is admissible to any sarbarahkar or ziladar or to any officer of the 3rd or 4th class when travelling on duty within the circle of his ordinary employment. Such officers may only be granted railway fares for journeys within their circles when the journeys are certified by the manager to have been advantageously accomplished by rail owing to the waste of time which would have resulted from travelling by road. The railway fares will be paid irrespective of the fact that the officials concerned may be in receipt of a fixed horse allowance.

Mukhtars and sub-overseers are entitled to actual expenses within their circles and to travelling allowance outside their circles for journeys made under the orders of the manager.

263. Managers are entitled to the carriage of camp equipage when on tour, according to the scale sanctioned by Government for deputy collectors, that is to say to a maximum limit of five bullocks or the corresponding number of camels.

Assistant managers and sarbarahkars, when provided with tents, are entitled to one rupee and eight annas respectively for each day they are in camp, subject to the provisions of article 1055 of the Civil Service Regulations.

Bill to be countersigned by controlling officer.

264. No bill for travelling allowance shall be paid unless countersigned by the controlling officer.

265. The district officer shall be the controlling officer for all officers of the first and second classes, except in cases where delegation is permitted by the Commissioner. The manager shall be the controlling officer for all officers of the

Chapter XV.—Advances.

Advance ledger.

266. When an advance is made, it shall be entered under the initials of the manager in columns 1 to 5 of an advance ledger in form 75 under the name of the person to whom the advance is made. When the advance is adjusted, the particulars of the transactions shall be entered under the initials of the manager in columns 7 to 12 of the ledger to clear the items.

Two registers in form 75 shall be maintained, one for permanent advances and the other for temporary advances. The ledgers shall be closed annually and the outstanding balances brought forward. Temporary advances outstanding for more than three months shall be reported quarterly to the district officer or manager. All temporary advances shall as far as possible, be adjusted by the end of the year.

NOTE.—Advances other than permanent advances shall be debited at once to the appropriate head of account and the account adjusted on receipt of the final bill. If the bill be for an amount greater than the advance, payment of the balance will be made in the ordinary way and the account balanced in the advance ledger. If the bill be for an amount less than that of the advance the account shall be adjusted by means of form 69.

EXPLANATION.—A permanent advance shall be considered to be adjusted for purposes of this rule only when it is finally repaid by the person to whom it is made.

Permanent advances.

267. To an officer whose duties cause him to incur petty expenses which require to be paid at once before money can be obtained on a contingent bill, a permanent advance may be allowed. The sum to be allowed shall be fixed on the supposition that recoupments will be made at least once a month.

268. Each officer who has obtained a permanent advance shall, on 30th September or last working day in each revenue year, sign an acknowledgment that the amount is due from him. In case of transfer of charge of an office a similar acknowledgment for the full amount shall be signed by the relieving officer. These acknowledgments shall be kept with the annual accounts, and in case of transfers with the connected files.

269. Each officer holding an advance shall keep up an advance account in form 76. In the case of advances for suits the page of the register of suits shall be given in the sub-voucher concerned.

270. When the cash in hand is running low and the advance has to be recouped, the advance account shall be closed by drawing a line across the page. A bill in form 72 shall then be made out from the details in columns 3, 4, and 5; on receipt of the money the amount shall be entered in column 6.

Takavi advances.

271. For takavi advances application shall ordinarily be made to the manager in form 77.

272. On receipt of the application, the manager shall pass such orders as may be necessary. The amount, if sanctioned, shall be entered in column 10 of form 77, which shall form the voucher for payment.

273. After payment, intimation shall be sent to the ziladar of the amount advanced and the instalments in which the demand is to be realized. Instalments and interest shall be calculated in accordance with the rules prescribed in the Board's circular 1-VI. On receipt of the intimation the ziladar shall forthwith post the demand in the bahi-khata, returning the intimation with the report that this has been done.

274. The repayment of a takavi advance is subject to the conditions on which it was granted, and it shall be the duty of the ziladar to inform the manager immediately if any of these conditions are infringed. On receiving the money in repayment, the ziladar shall grant a receipt for the amount in the usual manner in form 56 and shall then proceed as if the repayment were part of his ordinary collections.

275. For amounts not exceeding Rs. 20 a simple acknowledgment in the bahi-khata, as a receipt of the advance, will ordinarily suffice. When advances exceed Rs. 20 in the case of non-occupancy tenants or Rs. 50 in the case of occupancy tenants bonds shall be taken. When they exceed Rs. 50, security for payment shall also be furnished.

All bonds securing repayment of advances must be stamped.

Co-operative credit societies.

276. The Court of Wards will when it is possible and desirable advance the capital to provincial co-operative credit societies for the benefit of tenants on an estate. The management will be under the Registrar of co-operative credit societies; but the Court of Wards may where necessary provide a supervisor on pay of Rs. 30 to Rs. 50; the charge to be met by the estate or estates concerned.

277. Wherever a co-operative credit society is established, the manager should take care that the operations of the bank are not interfered with by takavi advances to members.

Save in time of scarcity takavi should be given through the village banks where such exist.

Chapter XVI.—Miscellaneous registers.

Register of co-sharers' profits.

278. A register in form 78 shall be maintained to show the share of the receipts of an estate due to sharers who are not under the Court of Wards. On 31st January and 31st July in each year this register shall be totalled and payment be made to the co-sharers in accordance with the record of arrangements under section 85 of the Land Revenue Act [vide rule 3 (c) of Board's Circular I-I].

NOTE.—(1) This register will ordinarily be kept by the ziladar and sent to the head office when it is necessary to make the payments.

(2) The procedure prescribed by this rule does away with the necessity of excluding the co-sharers' shares from the details of the annual accounts and budgets.

(3) The entries in columns 12—14 of the register will be made with due regard to the provisions contained in the record-of-rights of the village or villages in which the divisible profits accrue. Either lambardar's fees or the pro rata share of actual expenses of management, but not both, will ordinarily be charged and entered in these columns. Where actual expenses are charged, they should include the pro rata share of the cost not only of local establishment but also of superior supervision and of such contingencies and legal expenses (less recoveries on this account) as have been incurred in respect of the collection of the profits under division.

279. All deposits made with the management of an estate, whether in the form of cash, Government paper or other stock, or security bonds, shall be recorded in a deposit register in form 79. Separate pages shall be allotted for bonds deposited.

During the absence on tour of the manager the key may, to facilitate access to such papers as may be required, be left at head-quarters in the custody of a gazetted officer of the district staff.

Within the box shall be kept a register in form 80, in which shall be entered every document or valuable article contained therein, except securities filed by servants and contractors. Whenever a document or valuable article is removed, the fact shall be noted in columns 6-7, and the entry initialled by the manager. The date of return of such document or article shall be noted in the remarks column, one number being given to each document throughout its frequent withdrawals and deposits. On the relief of the manager or other officer in charge, a certificate stating the documents and articles handed over by him to his successor shall be entered in this register, over the signature both of the relieved and of the relieving officer.

Stamps.

282. The cost of stamps and postage charges shall ordinarily be met from the permanent advance. But, in order to enable a check to be kept upon the number of stamps expended, a stamp register shall be maintained in form 81 in the head office.

On receipt of cheque and receipt books their numbers shall be entered in column 3, and their issues (by book numbers) on separate lines in column 6 to admit of their return to the record-room being recorded in the remarks column by the dated initials of the record keeper. Completely used-up receipt books shall be returned by the ziladar at the end of the year, the others being used in the following year. The head clerk or other officer appointed by the manager shall be responsible for the correct maintenance of this stock book. The balance of forms in hand shall be verified at least once a year by the manager or other responsible officer appointed by the district officer in this behalf.

285. Before the first day of July in each year an indent shall be sent direct to such press as the Court of Wards may from time to time prescribe for the forms likely to be required during the following year.

286. No receipt book shall be issued to a ziladar until the name of the estate and a consecutive book and form number have been printed or stamped on each receipt. Each receipt book as it is issued shall have the date of issue and the name of the official to whom it is issued inscribed upon the outer cover. Special care should be taken to guard against the ziladars having in their possession more receipt books than they require for actual use.

325. It is a condition of appointment of every servant (other than one seconded from a permanent pensionable government post) who is appointed or promoted in the Court of Wards' service to an office of which the salary is not less than Rs. 10 that he shall subscribe at the rate of $6\frac{1}{4}$ per cent., or one anna in the rupee of his salary, to a provident fund. He may, if he so desires, subscribe at any higher rate not exceeding $12\frac{1}{2}$ per cent. of his salary; but having once so decided, the proportion shall remain fixed.

326. The subscription to the provident fund shall be made by deduction from every salary bill presented. In making the deduction fractions of a rupee of salary shall be omitted. The deduction shall be made from the gross salary irrespective of fines.

After five years' approved service in the case of a depositor paying more than $6\frac{1}{4}$ per cent. this contribution may be increased to an amount not exceeding half the depositor's subscription.

328. In the case of servants whose salary is paid by more than one estate, the contribution shall be charged to each of the estates concerned as nearly as possible in proportion to the amount of salary payable by them on account of the depositor, fractions of a pie being neglected in the calculation. The contribution of each servant shall be charged in the accounts to the same head as his salary. In the case of establishments maintained out of the proceeds of the rate levied under Act X of 1892, such contribution shall also be a charge on the proceeds of the rate, and shall be drawn by means of a bill in treasury form 254 or 255 and debited to the detailed head "Contribution to the Provident Fund" under "3—Land Revenue" in the case of district officers, and "18—General Administration" in the case of divisional officers.

331. If a servant be dismissed the district officer may, with the sanction of the Commissioner if the servant is one whom the manager, district officer or Commissioner is empowered to dismiss, and with the sanction of the Court of Wards in other cases, withhold all or any part of the contribution allotted to him with the interest accrued thereon.

332. In the case of there being any outstandings against a servant who has resigned or been dismissed, the district officer may deduct the amount of such outstandings from his deposits and pay him the balance only after such deduction. By outstandings are meant only such amounts as have actually been in the hands of the servant and not accounted for.

333. Any contribution and interest thereon withheld from a dismissed servant under rule 331 shall be refunded to the contributing estates in proportion to their contribution, unless he was, at the time of his dismissal, a member of an establishment maintained out of the proceeds of the rate levied under Act X of 1892, in which case the contribution and interest so withheld shall be credited to "VI—Provincial Rates, Provincial—Miscellaneous—Rate levied under Act X of 1892" in the district treasury.

(iv) At the end of the year and after the interest has been added by the post office in the pass book a broad-sheet in form 99 shall be drawn up, in which all the interest bearing balances will be noted. The amount of interest added by the post office in the pass book on the entire amount of the sums deposited during the year to the credit of the Court of Wards, less any amount already entered during the year under rule 331, shall be distributed among the individual accounts proportionately to the sums of each column (disregarding fractions of a rupee) of the broad-sheet.

(v) If any payment has to be made during the year on an individual deposit account under rules 330, 331 or 338, interest shall be calculated on that account only, as nearly as possible, in accordance with the rules in force in the post office. The amount of interest calculated shall be entered in column 7 against the account concerned before payment is made.

336. No voluntary deposits from servants will be credited in the provident fund.

If the estate has passed out of Court of Wards' management, the amount shall be remitted in cash. In the case of officials paid from the Act X rate fund the money shall be credited in the treasury to head VI—Provincial Rates, Provincial—Miscellaneous—Rate levied under Act X of 1892. Example 1.—Required to find the yearly instalment necessary to repay a loan of Rs. 1,00,000 in 27 years at 6 per cent. To repay a loan of Rs. 100 at the same rate of interest in 27 years an annual instalment of Rs. 7.5397 is necessary. Therefore annual instalments of Rs. 7539.7 will be required.

Example 2.—Required to find the number of yearly instalments in which a loan of Rs. 1,00,000 at 5 per cent. interest will be repaid if Rs. 8,500 can be devoted yearly to the payment of interest and reduction of principal.
Let x = the number of yearly instalments. Then Rs. 1,00,000 will be repaid by yearly instalments of Rs. 8,500 in x years, and Rs. 100 will be repaid by Rs. $\frac{8,500 \times 100}{1,00,000}$ or Rs. 8.5 in x years. Under the column for interest at 5 per cent. look up the nearest figure to 8.5. It will be found opposite the number 18, so that the answer is approximately 18 years.

••• The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

THE HYMNS OF THE RIG-VEDA IN THE SAMHIT AND PADA TEXT, BY
PROFESSOR F. MAX MULLER, M.A., IN TWO VOLUMES, PRICE Rs. 24;
PACKING AND POSTAGE RE. 1-12-0.

The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

APPLICATION FOR AMENDMENT UNDER SECTION 17.

Notice is hereby given that all persons interested in opposing the following application to amend may at any time within three months of the date of this *Gazette of India*, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

121 of 1908. Kendell and Company, Limited, of Bank Street, Bombay, seek leave to amend the specification of their application for a patent numbered as above. The proposed amendments as shown in the specification are as follows :—

On page 2, line 7, by inserting the words "of the paper" after the word "manufacture."

On page 2, line 7, by substituting the words "being mixed with the paper" for the words "distributed upon the raw."

On page 2, line 8, by substituting the words "itself and the paper is then" for the words "which is."

On page 2, line 11, by inserting the words "parallel to the paper surface;" after the word "lie."

On page 2, line 12, by substituting the words "they do not lie" for the word "not."

On page 2, line 13, substituting the word "protruding" for the words "they lie at the surface of the roller."

On page 2, by adding the following two paras. before the preamble to the claim.

"We are aware of moulded discs for Gin Roller washers being made from a mixture of pulp and coir; but in the case the fibres form an entangled mass and the surface of the roller does not present the same uniform rough surface necessary for a Gin Roller as in the case of our invention.

In our invention the unpulped coir or other fibre is cut into suitable lengths and is added to the paper in the paper making process and is incorporated with the paper so as to lie parallel to its surface. From this compound or combination of paper and coir suitable discs or washers are cut with holes in the centre and then jammed or screwed tight on a shaft. The discs being placed edgewise on the shaft present innumerable spiked edges evenly distributed on the roller's surface, after the roller is turned. The spikes protrude just above the surface of the roller and a rough surface which is always uniform continues to be presented as the roller wears down."

On page 2, by adding the following claim.

"2. The combination of coir and paper during the process of manufacture of the paper for the purpose of a gin roller substantially as described."

THE HYMNS OF THE RIG-VEDA IN THE SAMHIT AND PADA TEXT, BY PROFESSOR F. MAX MULLER, M.A., IN TWO VOLUMES, PRICE Rs. 24; PACKING AND POSTAGE RE. 1-12-0.

••• The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarly knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

Northern division, Ganges canal.—Fair rainfall at the beginning of the month checked demand for all crops but rice, and heavy rain about the middle of the month stopped all demand. Heavy rain again fell towards the close of the month. Canal was closed on 19th evening and remained so till end of the month. The falling off under sugar is due to somewhat insufficient supplies during the early sowing season, and the increase under other crops to the drought. Condition of crops both irrigated and otherwise is excellent.

Anupshahr division, Ganges Canal.—There has been good rain throughout. Crops are in excellent condition. Most of the sowing has been done.

Meerut division, Ganges canal.—General rain throughout the month. No demand. The canal was closed on the 19th. Crops are in excellent condition and prospects are good.

Bulandshahr division, Ganges canal.—Demand to the fourth of the month was nearly full. It was then slackened by rain and completely reduced. Distributaries closed on 5th instant. Supply was very good. There was an increase of 13,995 acres in all, chiefly under cotton, other food grains, and fodder crops, due to late rains. There was a large decrease under sugarcane as cotton and fodder crops were grown instead.

Aligarh division, Ganges canal.—At beginning of the month there was little or no demand outside the 3rd Sub-division and by the middle of the month good rain had stopped demand everywhere.

Mat Branch division.—Good rain from the middle of the month. Decrease in sugar is due to bad seed and insufficient supply in March and April.

Hathras Branch division.—Light showers of rain were received off and on up to the 15th and on the 16th and 17th heavy falls were registered which reduced the demand to nil.

The canal was closed on the 21st. Crops have much benefitted by the rain; grass is springing up rapidly and the anxiety regarding fodder is quickly lessening. Prospects at present are very promising.

Narora division, Lower Ganges canal.—Good rain throughout the month. No further increase expected.

Mainpuri division, Lower Ganges canal.—Showers commenced early in July and Bawar and Cawnpore branches were closed in the 2nd week and upper and lower canals on the 19th July. Rain in latter half of July was general but not too heavy. All anxiety about deficiency of fodder has been removed.

Cawnpore division, Lower Ganges canal.—The monsoon commenced on the 30th June and favourable monsoon conditions prevailed throughout July. The area irrigated to end of July was 51,095 acres, which is over 10,000 acres above the normal area for the season. Practically the whole of the excess in area is under cotton.

Fatehpur division, Lower Ganges canal.—There was no demand throughout the month as it was very wet. Kharif sowings of rice, fodder, and cotton in progress. Fodder ample. Prospects very good. Prices are still high and stationary. General health good.

Etawah division, Lower Ganges canal.—Demand for canal water stopped in the 2nd week of July.

Bhogpur division, Lower Ganges canal.—Kharif sowings are practically over except bajra and jwar. Rainfall during the latter half of the month was good and continues so.

Lower division, Eastern Jumna canal.—The monsoon broke in the 1st week and continued to give good rain throughout the month.

Upper division, Agra canal.—The canal remained closed throughout the month. There were good and well distributed showers.

Lower division, Agra canal.—Canal closed throughout the month. Demand nil.

Bohilkhand division.—Rice sowings have been completed and comprise a fairly large area. Demand for canal water was very keen for the sowings but by the end of July the rainfall was sufficient and demand became slack.

Dhasan canal division.—Excessive rain fell during the month.

Ken canal division.—The canal was run for a short time when the river rose but heavy rain soon stopped all demand.

Jhansi division, Betwa canal.—Owing to constant rain throughout the month there has been no demand except for rice.

THE HYMNS OF THE RIG-VEDA IN THE SAMHIT AND PADA TEXT, BY PROFESSOR F. MAX MULLER, M.A., IN TWO VOLUMES, PRICE RS. 24; PACKING AND POSTAGE RE. 1-12-0.

•• The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

2. Except with the special sanction of Government the spirit to be supplied must be made from the base as given in the schedule. Spirit made from other than the prescribed base may be supplied in addition.

3. The tender must specify the price per gallon reduced to L. P., exclusive of the duty at which the tenderer is prepared to supply the spirit at all the bonded warehouses situated in the contract area, as enumerated in the schedule. The price per gallon will be the same at all the warehouses in the same contract area.

4. The rates of excise duty are at present as noted in the schedule, but Government reserves to itself the right of revising them during the term of the contract, if expedient. The average annual consumption during the past three years is as noted against each district.

5. The contractor may tender for the supply of the spirit from any distillery, whether situated in these provinces or elsewhere. He may transport spirit at any strength not greater than 45° O. P. to the bonded warehouses and there effect reduction to the prescribed issue strengths. The issue strengths are 25° U. P. and 50° U. P.

6. Government will supply suitable bonded warehouses for the storage and issue of spirit, but the necessary vats, pipes, pumps, fittings, &c., must be provided by the contractors. The contractor must arrange to store and issue spirit from all the bonded warehouses in his contract area specified in the schedule.

7. All plant proposed for erection in a bonded warehouse must be approved of by the Excise Commissioner. Should the contract at the end of its term not be renewed to the same contractor, the succeeding contractor will be required, if the outgoing contractor so demand, to purchase the plant erected in the warehouses at a valuation made under the orders of Government.

8. All distillery and warehouse operations will be performed under Government supervision, the cost of which will be met by Government.

9. Tenders should be in sealed covers, superscribed with the words "Tender for the supply of country spirit," and should reach the Excise Commissioner, Allahabad, not later than 12th December 1914.

Full power is reserved to accept such tender as may be deemed best for the public interests, and to reject any of those received without reasons being assigned.

10. The parties whose tenders have been accepted will be required to deposit, within one week after the decision has been communicated to them, a sum of Rs. 3,000 (three thousand) in cash or Government promissory notes as security for the due fulfilment of each contract.

LICENCE is hereby given to hereinafter called the contractor, under and subject to the provisions of the United Provinces Excise Act, 1910, for the exclusive wholesale supply of country spirit for sale at the warehouses mentioned in the attached schedule for a term of three years from 1st April 1916.

2. The issue of the said spirit from the warehouses to be at such strengths only as may be fixed from time to time by due authority and at prices proportionate, according to strength, to the price mentioned in the schedule.

3. The spirit supplied shall be of good quality. If distilled in a patent still it shall be distilled so far as possible at a strength not greater than 45° over proof. It shall be subject to periodical analysis, and the contractor shall be bound to take steps to remedy defects which the Excise Commissioner may consider material. If spirit is found to be inferior quality it may be rejected and destroyed or otherwise dealt with under the orders of the Excise Commissioner. Officers in charge of distilleries and warehouses are empowered to stop, pending the orders of the Excise Commissioner, the issue of spirit which they consider bad, and are required to send samples of such spirit for analysis without delay.

4. Licensed vendors are entitled to demand to be supplied with spirit distilled from the raw material stated in the schedule. The contractor may, in addition, supply liquor derived from other approved bases.

5. The bonded warehouse buildings will be supplied and maintained by Government. All fittings or articles connected with the supply, storage, gauging, handling and issue of spirit, including vats, casks, tanks, pumps, pipes, cocks, locks, gauging rods, measures, vessels, &c., shall be provided by the contractor. The contractor is responsible for the safe custody of the stock of spirit.

6. Such minimum stock of spirit as may be fixed by the Excise Commissioner shall be maintained at each warehouse.

Whenever the stock falls short of this minimum and the contractor fails at once to replenish it, the Collector may procure spirit from elsewhere, the cost of which shall be recoverable from the contractor in the manner provided in condition 9 *infra*.

7. At the close of the contract, should the licence not be renewed, spirit in warehouses up to one month's supply of the contract area will be taken over by the incoming contractor at the contract rate. Should the Excise Commissioner so order, the contractor may be required to make over spirit to the extent of two months' supply of the contract area to the new contractor at the contract rate: provided that no less than four months' notice shall be given for any such order.

8. Licensed vendors shall be entitled to have spirit issued to them with all reasonable expedition in such quantities, subject to a reasonable limit, and at any of the prescribed strengths, as they require, on proof of payment into a Government treasury of the excise duty at the rate from time to time prescribed and of the supply price at the rate agreed to in this contract.

9. Failure to supply spirit as specified in condition 8 *supra* within what the Collector considers a reasonable time will entail a penalty, at the discretion of the Excise Commissioner not exceeding Rs. 5 per proof gallon spirit demanded but not supplied. In such cases the spirit may be purchased by the Collector elsewhere at his discretion at the risk of the contractor. The penalty, the cost of the spirits purchased and any loss to Government that may result may be deducted from the amount, if any, due to the contractor or from his deposit.

10. The contractor will be at liberty to commence storing in the warehouses before the first day of April 1916, but no spirit so stored shall be sold or be allowed to pass out of the custody of himself or his servants before that date, unless otherwise permitted by the Excise

.. The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarly knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

“The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a sonorous knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*”

THE HYMNS OF THE RIG-VEDA IN THE SAMHIT AND PADA TEXT, BY PROFESSOR F. MAX MULLER, M.A., IN TWO VOLUMES, PRICE Rs. 24; PACKING AND POSTAGE RE. 1-12-0.

*. The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

*. The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

*. The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarly knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*

Northern division, Ganges Canal.—The weather conditions were very similar to those of May but much hotter. There was fairly good and widely distributed rain in the first week of the month which enabled some fodder and cotton being sown. Demand was 12 to 16 annas. Condition of irrigated crops good and unirrigated fair at end of month.

Anupshahr division, Ganges canal.—Up to end of June demand was full for sugarcane, makhka and juar. Very hot winds alternating with cool easterly winds blew throughout the month.

Meerut division, Ganges canal.—Light rain on 5th, showers on 22nd, and drizzles on 23rd and 24th. Bright and hot on other days. Demand was intense throughout. Monsoon now appears to be setting in gradually. Irrigated crops are in good condition.

Bulandshahr division, Ganges canal.—Demand intense, supply very good, slight rain on five days which did not affect demand. There was an increase of 7,867 acres in all chiefly under cotton, other food grains, and fodder crops, due to late rains. There was a large decrease under sugarcane as cotton fodder crops &c. were sown instead.

Aligarh division, Ganges canal.—Water taken keenly throughout the month in lower half of the division. At the beginning of the month there was fair rain over the upper half, sufficient in some places to stop demand for canal water and on the 25th when the break of the rains proper occurred, the heavier rainfall took place in the same area.

Mat Branch division, Ganges canal.—Short supply in February and March prevented paeo of sugarcane. There is an increase under other crops.

Bathras Branch division, Ganges canal.—Light showers of rain were received on the 5th, 6th and 25th of the month which did not affect the demand to any great extent. Supplies throughout the month have been good and a brisk demand maintained. The decrease under sugarcane is in a large measure due to the dry conditions which have prevailed since August 1913. Cultivators got a very inferior outturn from their sugarcane last *khari* with the result that under present straightened circumstances they have been very chary about sowing a crop which is likely to prove a failure. The increase under other crops is due to natural expansion of irrigation and to the dry nature of the season.

Mainpuri division, Lower Ganges canal.—There were scattered scanty showers between 4th to 6th and 23rd and 24th June otherwise the demand was full and supplies sufficient. Fodder has been very scarce and dear. Increase in area is due to drought.

Cawnpore division, Lower Ganges canal.—About one inch of general rain fell on the 4th and 5th June enabling the cultivators to sow a large area. Light showers fell on 23rd and the monsoon commenced on the night of the 30th June. The areas of fodder crops and cotton are much above the normal.

Fatehpur division, Lower Ganges canal.—Weather was dry, demand was intense, and prices were high.

Ghatampur distributary, Fatehpur division, Lower Ganges canal.—Demand was full, supply sufficient. Fodder very scarce. Condition of the cattle poor.

Etawah division, Lower Ganges canal.—During the first week of June light rain fell practically throughout the division which slackened demand for a week or ten days. Supply ample throughout the month. The area irrigated to end of June shows an increase of 32,027 acres as compared with the corresponding period of 1913.

Bhognipur division, Lower Ganges canal.—Sowing of cotton is over and that of *jowar* and *bajra* is in progress. Rainfall has been very scanty and demand was full throughout the month except for a couple of days.

Upper division, Eastern Jumna canal.—The falling off of 1,385 acres of sugarcane as compared with that of last year is due to reduction in cultivation of sugarcane. The loss sustained by the cultivators last year on account of frost discouraged them from cultivating sugarcane. Prohibition of irrigation round Saharanpur in connection with Anti-malarial scheme is another reason for its decrease.

Lower division, Eastern Jumna canal.—There was light rain at times during the month but it was more or less local and had little effect on the demand.

Dun canal.—The falling off of 310 acres of sugarcane area as compared with that of last year is due to the past winter's frost which damaged the crops to a great extent and discouraged the cultivation of the crop this year.

Upper division, Agra canal.—The area under sugarcane in this division has never been large. It has however a tendency to decrease while that under cotton is slightly increasing. Cotton requires much less expense and labour, matures in a comparatively short time, and finds a ready market on account of ginning factories in the neighbourhood; and is consequently more paying. The demand was pretty strong in the first week of June but fell on account of showers on 9th and 10th. It began to spring up again in the beginning of 3rd week but good and fairly distributed rain on 22nd and 25th stopped it altogether and the canal was closed.

Lower division, Agra canal.—The month opened with full demand but the rain in the second week reduced it, further rain in 3rd week quelled it entirely, and canal was closed from 26th. The decrease in the sugarcane area is principally due to unfavourable seasons in the past few years making sugarcane unpopular. The rising price of cotton has increased the popularity of this crop and most cultivators have ceased to grow sugarcane and taken to cotton.

Rohilkhand canals.—Good rain fell in the first week of July, which is sufficient for the rice sowing except on Bijnor canals. Rice sowing in full swing.

Lakes, Jhansi district.—Except from Barwasagar there was no direct irrigation, all areas recorded being extra crops irrigated by lift within tanks and reservoirs. There was a 16 annas demand on Barwasagar which ceased on 23rd with the advent of good rain.

Ken canal division.—The reservoir filled at the end of the month, a small flood coming down the river. Canal was opened on 26th for *khari* sowings.

Tarai and Bhabar Government Estates division.—The monsoon broke later in the Tarai than last year, hence a stronger demand for canal water during June.

PROFESSOR F. MAX MULLER, M.A., IN TWO VOLUMES, PRICE Rs. 24;

•• The Rig-veda, the oldest book of Indian literature, has very properly been made one of the principal class books for those who study Sanskrit in the schools and colleges in India, and though at present a scholarlike knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammar and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country. *Extract from Preface.*
